Assignment 2 – Research Report

Write a brief (6-8 page) report on a given topic. Your report should give a fairly high level overview of the given topic as it relates to distributed systems but not completely avoid technical details. Your report should be structured appropriately and include references.

Topics

Distributed Hash Tables	()
Hierarchical Location Services	()
Peer-to-Peer Network Topologies	()
Vector Clocks	()
Virtualization	()
Election Algorithms	()
Sensor Networks	()
Blockchain	()
